Dear Grace Church Family and Friends,

At the Harvest Dinner on Saturday, everyone in attendance was invited to participate in the “Kindness Rocks Project.”

As a parish, we seek to become the Beloved Community through our work and ministries, through fellowship within our community and relationships outside our church.

At the dinner, we provided every guest with a painted rock and colored Sharpie pens, and we encouraged them to articulate their vision of the Beloved Community, to share their thoughts, hopes and dreams for Grace Church.

You can see a sample of what people wrote below, and over the coming year, the clergy and other members of the congregation will place our kindness rocks around the church campus and throughout Silver Spring.

They are just another small, visible way for us to share God’s love and grace.

What would your rock say? What is your message of hope and kindness?

Whatever it is, be sure to share it with someone this week.

See you in church,
Andrew
